Coleman Defeats Hillcrest 2-0

Crows Nest Pass league standings.

	P	W	L	D	P
Kimberley	6	5	1	0	10
Coal Creek	7	4	3	0	8
Coleman	6	4	2	0	8
Corbin	6	4	2	0	8
Fernie	6	3	2	1	7
Michel	6	2	2	2	6
Belleview	6	2	3	1	5
Blairmore	6	1	5	0	2
Hillcrest	5	0	5	0	0

Results of games played over the week end were:

Hillcrest 0 Coleman 2
Belleview 1 Blairmore 0
Michel 2 Fernie 2

Coleman moved into a tie for second place when they defeated the Hillcrest club on Saturday on the latter's ground by a score of 2-0.

Coleman played with ten men for the entire game, W. Anderson being injured a few minutes before the game started and was unable to take his place on the team.

Coleman had much of their own way during the entire game and scored a goal in each half. J. Anderson scored after thirty minutes of play when he beat the defence and shot past Makin. Brown and J. Anderson missed open goals a few minutes later due to being over anxious. The first half ended 1-0 for Coleman.

The second half was a repetition of the first with Coleman continually on the offensive. Jock Anderson was credited with the second goal when he scored from a corner kick taken by Brown. Hillcrest lacked the football guile of former years and were easily victims for Coleman.

Line up:

Coleman: Ford, Griffiths, Bell, Gardiner, J. Anderson, Balloch, W. Anderson, Fraser, Batrum, Jock Anderson, Brown.

Hillcrest: Makin, Elick, Reid, Richards, Pryde, Clark, W. Makin, Draper, Dercle, Daniels, Bianchina.

ST. PAUL'S UNITED CHURCH

The services at the United Church were well attended last Sunday and the minister preached two helpful and heartening sermons. Let us all be in our places Sunday and keep up the attendance during the month of June. On Sunday, June 10 the minister will again have charge of the services. The junior choir will sing in the morning and Mr. A. Roberts of Calgary will render an organ selection. The sermon will be on the subject; "Jesus said: I Am The Light of The World".

In the evening the sermon will be on "The Tragedy of A Selfish Ambition." Sunday school meets at 12 1/2. The teacher's training class will be held at 3 p.m. Sunday

Praise for Coleman and Michel-Natal Orchestra

"It seems to me the whole of Western Canada spends its time in making music and traveling to perform it," said Dr. Hull, when he heard that Coleman Michel-Natal school orchestra had traveled 100 miles from Coleman to take part in the Friday afternoon festival session, in which it was winner in its class.

"This conductor, he said, certainly knows his work, his beat was always well defined, which was more than he could say of many conductors, and to him I take off my hat."

Regarding the playing of the section, he said, "There was good unanimity and a good attempt at orchestral colouring. The clarinet solo was quite well done, and the give and take in following the conductor's indications, was quite well observed. The beat was always clear, and some of the younger folk might now keep an "orchestral eye" on the stick."

85 marks were given the orchestra, and one of its smallest players was an 11-year-old boy called, to whom Dr. Hull made special reference. Following the adjudication Dr. Hull was introduced to Mr. Harrie and it was found that both came from the same city in England.

Miners Meeting for Election of Officers

On Sunday, June 10, Coleman Miners Association meet in the Community Hall at 2:30 p.m. for the annual election of officers and standing committees. The present officers are J. Atkinson and W. Chapman, president and secretary, who have held office for the past year. There are quite a number of committees to be appointed, and it is urged by the executive that there be a good attendance of members. Committees will also likely be appointed to arrange for the annual sports day and celebration on July 2nd.

Rovers Entertain

The Rovers entertained the Rangers and other guests at a party on Friday evening at the home of Mrs. R. P. Borden. Whist was played, prize winners being Maureen Cooke and Reg Jones; consolation, Nora McLeod and Alan Short.

A dainty supper was served by the boys, assisted by Mrs. Borden and Mrs. C. J. Devine. "House Housie" was played, Isabelle McDonald winning the prize. The rest of the evening was spent in playing games, dancing and singing.

Support Required for Title Boxing Card

So little encouragement has Barrington received to proceed with title boxing matches here on July 2, that he is considering Blairmore or Corbin as a scene of operations, fans in two places being anxious to have the card staged. \$250 is required as a minimum to cover expenses and leave the boxers a little margin to split, but so far nothing like that amount has been taken up in tickets. Barrington has refused to stake his chances on the match and make good a bout if followers of boxing here desire to see the program here, they will have to assure support by buying tickets at least guarantee expenses. Barrington has staged good cards, and with a reasonable assurance of support, will go through with pending arrangements. A wager of \$500 is the stake on the main bout if the fight takes place, it being for a western championship under boxing commission regulations.

Local News

Seeing Dan Morrison with a travelling bag, and asking where he was going, all he would state was he was going for a holiday to Honolulu.

The interior of International Coal Co. power house has been brightened by kaleomine and paint, so that you have to be careful where you put your muddy feet. It is a great improvement and a pleasure to behold.

Through a premature advt. in The Journal, Sentinel Meters had a large number of enquiries for the new model Buick. None have left the factory yet, but as soon as possible models will be on view.

Members of Minerva Chapter who attended the Grand Chapter of the Eastern Star at Lethbridge included: Mrs. Rippon, worthy matron, and Mesdame Patterson, H. E. Gate, Thomas, Morris, Jean Patterson, Garner, Dickson, Hilda Houghton, and Mrs. Wes Vincent.

Miss Annie Sudworth, daughter of Mr. and Mrs. Dave Sudworth, was united in marriage to Mr. Fred Hirai in Blairmore, June 2, Rev. A. E. Larke officiating. Miss Betty Foxton and Mr. Jesse Hirai, the groom's brother, stood for the couple. The banquet was held at the home of Mr. and Mrs. J. Foxton.

FOR SALE:—Three Milk Cows coming fresh soon—Mrs. H. C. Davis, Lundbreck.

LOCAL AND GENERAL

Mrs. McEachern, Miss Charlotte McEachern and Miss Olive McLeod of Lethbridge, former teachers in Coleman, and Miss Martha Houston formerly high school teacher here, came to Coleman for the weekend, and on Saturday evening were the guests of Miss Yuill at dinner at the Grand Union, together with other friends of the visitors. Later they enjoyed the picture, "Little Women" at the Palace, and the evening concluded with a social hour at the home of the Misses Margaret and Ethel Dunlop. The party returned to Lethbridge on Sunday afternoon.

West Coleman Residents Urge Building of Sidewalk

With the closing of the C.P.R. tracks to pedestrian traffic, people of West Coleman point out the necessity of a sidewalk being built around the rock cliff. There is no protection for pedestrians, and the highway is narrow at this spot, so that it is likely a portion of the C.P. right of way within the fence will require to be used for this purpose. It is a necessity requiring immediate attention, for the safety of the public. Several have asked the Journal to draw attention to this

Crows Nest Pass Schools Track Meet Result Summary

Points awarded to schools: Belle Vue 1924, Hillcrest 1373, Coleman 137, Blairmore 66, Pincher Creek 63, Cowley 11, Frank 8

Seven bronze medals awarded:

Points
Daetobel, Coleman 15
Savero, Bellevue 13
F. Scott, Pincher Creek 20
Fournier, Pincher Creek 20
Terlecki, Hillcrest 15
Mary Synder, Coleman 25
McLanis, Bellevue 22

Silver medals for the highest aggregate awarded to:

Points
S. Richards 26
D. Costick and F. Costick, Bellevue. Each 28

Two provincial records were broken. Teddy Seaman, Hillcrest, Class E, boys under 16, 8-lb. shot put 35 ft. 9 in., previous record 34 ft. 6 in.

Rose Cerny, Frank, girls under 18, Class D, base ball throw, 161 3 feet, old record 141 9 1/2 feet.

Douglas Social Credit System Meeting June 19

Mr. and Mrs. Rogers and Mr. Unwin, of Calgary, will address a public meeting in the Community hall on Tuesday, June 19, a local committee having arrangements in hand. Everyone is cordially invited to attend and in order to defray expenses a collection will be taken.

Three representatives of the Douglas system will address a meeting in the Union hall, Hillcrest, on June 18, at which Geo. E. Crick, shank, M.L.A., has been asked to act as chairman.

That "Bought And Paid For" Idea

There is a curious persistence in the idea current in certain parts of Eastern Canada, that the older provinces of Confederation have proprietary interests in the prairie provinces by "rights of purchase".

Just recently, a storm which ranged West against East, broke in the House of Commons at Ottawa, when relief and other expenditures required by Western Canada were under consideration. During the discussion, the "bought and paid for" mentality was prominently in evidence, according to newspaper despatches. It appears inevitable that, when any expenditure which may be construed as exclusively Western, is mooted in the federal parliament, some member from one of the older provinces, impelled by this idea, seems bound to object on the ground that the prairie provinces are not entitled to further consideration—and terms such as "blood-suckers" are applied, indiscriminately and with reckless abandon, to governments and people of the West.

Forgotten in the heat of debate is the amazing part which the West has played in the material advancement of the Dominion. Forgotten, for the time being, is the gigantic contribution which the wheat-growing prairies have made to the wealth of Canada. Forgotten are the tremendous expenditures made, by the Dominion as a whole, for works and projects and purposes which may be construed as exclusively Eastern. Forgotten is the use made of the resources of the West in the building of great transportation systems of advantage to the whole of Canada. Forgotten is the influence of prairie purchases over upon the industrial development of the East. Forgotten, too, is the fact that the West's present needs are due to the dire extremity of many of its people—condition they certainly did not seek and did nothing to create. The "rights of purchase" idea reigns paramount over all others when tempers are frayed and local zeal is in the ascendancy. In one breath it is admitted that the prairie section has contributed more to the wealth of Canada in a specified period than any other component part of the Dominion. In the next, the prairies are branded as "blood-suckers," draining, as it were, the coffers of Canada which, by implication, apparently are filled solely by the contributions made by the older, Eastern provinces.

The idea, of course, has its roots in the historical charters granted by Charles II, of England, in 1670, to the Hudson's Bay Company, which conferred upon that company "rights in the territory tributary to the river draining into the Hudson Bay"—including property rights and rights of government. These rights the company exercised in the territory known as Rupert's Land for some two hundred years.

When, however, Confederation became an accomplished fact in 1867, the Canadian parliament, pursuant to the great vision of a united Canada stretching from ocean to ocean, initiated negotiations with the Imperial Government at London with a view to acquiring possession of the territory held under this charter by the Hudson's Bay Company. The British Government agreed to the request on condition that the arrangement entered into would not involve expenditure by the Imperial Treasury, and on the further condition that there should be no surrender of territory until the terms had been agreed upon.

Negotiations with the Company proceeded for two years, during which time it held out for a cash payment of £300,000 (approximately \$1,500,000), as one of the terms under which it was prepared to relinquish its rights in the territory. The Canadian Government, then representing the original provinces of Confederation, borrowed the required sum on bond issues which matured in 1904. The money being paid, the Company surrendered its rights under the charter, and Canada stretched one and indivisible from the Atlantic littoral to the Pacific seaboard. That is the story, that the genesis of this "bought and paid for" idea which crops up, ever and anon, during debate in the federal parliament.

Obviously, \$1,500,000 is a ridiculously small sum against which to assess a claim of proprietary rights of purchase in the entire prairie section of Canada. It is ridiculously small not only in proportion to the wealth produced normally each year in the far-flung wheat field of the West. It is ridiculously small not only in proportion to the contribution made by the "purchased" territories to the aggregate wealth of the Dominion. It is ridiculously small in comparison with the annual contributions made by the Western provinces to the revenues of Canada. That the idea should survive at all in the face of recent history is incomprehensible to Western minds. That it should be used to justify opposition to present claims of certain sections of the prairies for aid in their extremity, demonstrates not only the mortal poverty of the objector, but a naive ignorance of obvious facts. Recent economic experience has proved that, instead of the East holding the West in fee, the reverse is closer to the truth.

Italy To Build Battleships

Three Large Fighting Ships To Be Built Under Washington Treaty

Italy will construct three large battleships, with general specifications similar to those of the French battleship Dupleix, it was disclosed by naval officials.

The new vessels will be completed by 1940 and will cost about \$85,000,000. Their construction will be part of a program outlined by Premier Mussolini in an address before the chamber in which he stated that Italy proposes to utilize the 70,000 tons allowed Italy under the Washington treaty.

The premier estimated the expenditure will total 1,000,000,000 lire. This capital expenditure will be in addition to appropriations to modernize old battleships between now and 1940.

Life-Saving Ducks

Balled Round Companion And Rescued It From Mud-Turtle

Many birds have a lot more sense than people give them credit for, according to a man from Minnesota. He tells, for instance, that last year he saw a lot of his ducks in a hedge in the middle of the little lake on his farm. They were setting up such a clatter that he took a rowboat and went out to see what was up.

In the centre of the hedge was a duck more than half under water, being dragged down by a huge mud-turtle that had it by the foot. The other ducks were pressed as close as they could get in an effort to hold it up as long as possible, meanwhile sending out distress calls as best they could. A rescue was effected and the ducks disbanded.

Household Drudgery The Bane of a Woman's Life

Nature intended women to be strong and healthy instead of weak and sickly, but how can a woman have good health when she has to go through the household drudgery without any relaxation. Is it any wonder she becomes nervous and irritable? Has not flue, faint and dizzy spells, shortness of breath, aches and aching sensations, and can't sleep at night?

Women who are weak and run down will find in Milburn's H. & N. Pills a remedy to strengthen the system and bring back the much desired health.

World's Largest Flying Boats

Russia Leads With Britain Second And United States Third

Like everything else airplanes are becoming larger and more powerful. The honor of having the biggest goes to Russia.

The Russians have almost completed at Moscow a flying boat—it might be called a flying liner—to be named the "Maxim Korkin." It will provide accommodation for 70 passengers, and will have a crew of six. It will have a moving picture "auditorium," and a room for developing photographs. The pilot will sit in a compartment above the wings so that he will have an uninterrupted view.

Great Britain furnishes the second largest, the "Sylva," which is almost ready. It will carry 39 passengers and a crew of five. Among other things it will have a smoking compartment.

The United States comes third with the S-42, built at Bridgeport, Conn., by the Sikorsky Company. It carries 32 passengers and a crew of five. It has a full-load range of 1,250 miles non-stop, and can also carry 1,000 pounds of freight.—St. Thomas Times-Journal.

"PERSONS NOT FAT LIVE LONGEST"

Eminent Physician Declares

In a recent lecture before the American Medical Association a prominent physician states that persons who aren't fat live the longest.

Commenting on this, his Insurance companies often reflect upon the weighty folks, or charge higher premiums on account of the risk. Fat crowds and weakens body organs—sets you down and puts you up again, it makes you feel bad and fat at the same time. A host of ailments (even rheumatism, acidity, shortness of breath and lassitude) are often associated with fat.

So get rid of the dangerous, unhealthy fat. There's a reason why you shouldn't, when science has given you this safe, effective treatment—a half teaspoonful of Kruschen Salts in a glass of hot water first thing every morning.

This healthful "little daily dose" of Kruschen keeps the system free from harmful toxins, it helps to re-establish normal and proper body functions, it makes you feel good and fat at the same time. Energetic activity takes the place of sluggish indolence all while you lose excess fat gradually and without discomfort.

Vaccine For Tuberculosis

New Preparation Being Tested On Cattle In Ireland

Experiments to find a cure for tuberculosis in cattle continue in various parts of the world. The Spahlinger vaccine, of which much was heard two or three years ago, is still undergoing tests, the most recent of which have been made in Northern Ireland under official auspices. The calves vaccinated with the Spahlinger preparation have survived the injection of heavy doses of tubercle infection and are thriving, while untreated calves have succumbed.

As the United Kingdom is now embarking on a national campaign to clean up her dairy herds and to eradicate tuberculosis, the final results of the Ulster trial seem likely to offer an economical and practicable means of immunizing dairy cattle against tuberculosis and gradually ridding the country of a scourge which is costly to public health and farmers.

Dwarfs Holding Congress

Likely To Take Place In Budapest Next Year

Fired by the Nazi doctrine of racial purity, dwarfs of Hungary have formed a National Union of Hungarian Dwarfs and have invited all the dwarfs of the world to a Dwarf Congress which is to be held, probably in Budapest, next year.

Their creed is to "preserve the purity of the dwarf race," to forbid marriage with normally-sized people, and to demand lower fares and smaller houses for all tiny folk. Their leader, their Hitler, is said to be 30 inches tall.

Invention For Radio Fans

Dr. Nevil M. Hopkins, of New York University, is the inventor of a new electrical device which he claims will revolutionize the radio broadcast industry. He calls it the "radio devotes" and by use of this instrument, a listener-in on a broadcast can, by pressing a button, immediately transmit to the station his reaction to the program being presented.

All tree squirrels make nests of twigs and leaves among tree branches.

Fulfilling Father's Hope

Captain Scott's Son Makes Study Of Natural History

Twenty-two years ago Captain Scott, one of the greatest English explorers of all time, lay dying in a tent in the Antarctic.

The last letter he wrote was to his wife. He spoke of their infant son Peter. "Make the boy interested in natural history if you can," he said. "It is far better than games."

Peter Scott is 24 now. He has fulfilled his father's hopes. Recently he opened in Bond street, London, his second exhibition of paintings of bird life.

The grey light of dawn is there; so are the mudflats, the sinuous creeks, the ebb of the tide, and erie, plaintive noises. The curlew calls; you can hear the piping of awakening redshank and stint. Grey geese rise V-shaped into the sky and flight showard to the fresh marshes of the mainland.

It is a world of thrills to the mere wildfowler. It is a world of exultant joy to the wildfowler-naturalist, which is what Peter Scott has become.

He shoots little now, as he said recently, but might and day, the winter through, lies in a scooped-out hole in the Wash, or huddles in a pit in the salt marshes, waiting to catch the fleeting visions he has captured in paint.

The Grasshopper Campaigns

Provincial And Federal Organizations To Deal With Menace

The Canadian Insect Pest Review for May of the Dominion Entomological Branch in the 1933 summary of insect outbreaks of that year states with reference to grasshoppers that control campaigns involving the use of poisoned baits were actively carried out in most areas, and, despite many difficulties, resulted in the destruction of vast numbers of grasshoppers and the material saving of crops. In July and August, extensive flights of grasshoppers occurred in many parts of the infested region. As it was a successful operation, it is expected that during the autumn there will be even more intense and destructive than that of 1933, and consequently Provincial and Dominion authorities are organizing a comprehensive campaign to deal with it.

Dredging For Gold

Work To Be Started On Yugoslavia-Romanian Border

Modern miners are to attempt to dredge the River Pek on the Yugoslavia-Romanian border, on the bed of which gold has been collecting for more than 2,000 years. Up this river sailed Julius Caesar and his legions from the Black Sea to the Golden Fleet. Of quest is no legend today for the peasants of the Pek Valley steep sheepskins in the water and after a few weeks pull out golden fleece—the silvery gold brought down from the mountains by the water having settled in the wool. It was here that Alexander found all the gold for his expedition in 328 B.C. Firms of many nations have made bids to supply the dredging machinery and the operations are expected to be extensive.

A closely guarded secret Germany is quietly conducting its experiments with radio-controlled airplanes. It is reported that successful flights were made by a machine entirely without a crew, direction being entirely by radio. The tests were made under greatest secrecy, and officials refuse to divulge any information.

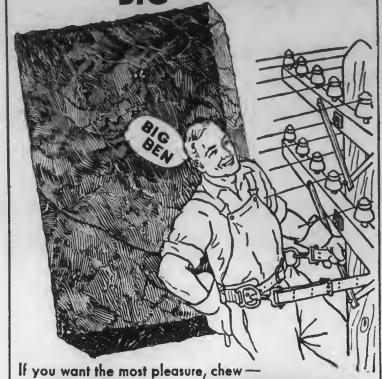

"Too bad about Jane and the man she's engaged to. Neither one of them is good enough for the other. Where did you get that idea?" "I've been talking the matter over with both families."

The world is wide, but there are lots of narrow people in it.

BIG BEN THE PERFECT PLUG Chewing Tobacco

Still Works At Ninety

Blacksmith Not Idle Even If Son Runs Business

Partnership of Kemp and Son, village blacksmiths at Worlingtonworth, England, has been, to quote the official notice, "dissolved by mutual consent," but a man who worked hard as a blacksmith even in his ninetieth year will not be altogether idle. It was not lack of business that caused the firm to dissolve. Far from it, but simply that Samuel Kemp was 90 and came to the opinion that his boy, James, was old enough to carry on. Samuel Kemp, however, does not intend to retire, "because," he says, "you can't trust these boys." He has finished 78 years continuous work at the forge. Up to the time the official notice of the dissolved partnership was published, he had a steghe hammer. Next day he was soldering kettles.

Canada's Agricultural Revenue

Decrease Last Year Of Over Four Million From Previous Year

The total gross agricultural revenue of Canada for 1933 is estimated at \$762,302,000 as compared with revised estimates of \$766,794,000 for 1932, and \$836,114,000 for 1931. This represents a decrease of \$4,492,000 or 0.6 per cent, from 1932. There are increases in the revenue from farm animals, wool, dairy products, fur, farming, honey, clover, and grass seed, and decreases in the revenue from field crops, fruits and vegetables, poultry and eggs, maple products, tobacco, and flax fiber. The greatest increases are from farm animals and dairy products, while the biggest decreases in revenue are shown in field crops and poultry and eggs.

Greatly Increased Riches

Higher Gold Price Made Vast Difference To Indian Prince

It is due largely to President Roosevelt that an Indian prince, the Nizam of Hyderabad, is much richer than he was a year ago. Locked up in his strong-room is a vast store of gold in coin and bullion. Early last year its value was estimated at \$500,000,000. Since then the price of gold has increased about 60 per cent, as a result of the action of the United States in fixing a higher price for gold. The Nizam's hoard is now estimated worth \$800,000,000.

Has Regular Zoo...

Pity the pavior who breaks into the room of Kenneth Johnson, University of California student. Johnson, who aspires to be a zoo keeper, keeps eight snakes, a black widow spider, and a Gila monster in his bedroom. The pets have the run of the bedroom. Johnson studies the best way to make them happy, and improve their intelligence by running them through mazes.

Good Friend To Horses

When Policeman M. Elwood prosecuted John Hill, a grocer, for cruelty to a pony it made the 1013th equine he had befriended in court. Elwood has been on the London force for 20 years. A lover of horses, he watches for cases of cruelty and brings the offenders before the law.

Dreams Of A Starling Future

Nicola Tesla On Verge Of Announcing New Discoveries

It is all very hazy, of course, but when Nicola Tesla says he "is on the verge of announcing a new invention of incalculable benefit to the world," the world is warranted in sitting up and taking notice. For the wonders that Tesla has performed in the past are to be considered as an indication of the wonders he may perform in the future. The Italian genius says he is prepared to starle the world with four new inventions which are likely to provide him with millions. With these millions he will proceed to put some of his earlier discoveries on a commercial basis. Chief among these, we take it, he rates the transmission of power by wireless. His discovery of the motorless plane, the flying machine of tomorrow, freed from the gasoline engine, will have unlimited cruising radius by drawing on transmitted power. And, of course, that would be only one of many possible wonders. Electricity reduced to terms of power already enters into our daily lives in so many forms that the field awaiting development of Tesla's wireless power transmission is practically without limit. So, although, as we said at the outset, the Tesla announcement is somewhat hazy, it is clear enough to start vivid dreams of a starling future. —Buffalo Courier.

Belgium Looking To Her National Defence

Joins Countries Who Have Given Up Disarmament Idea

Add Belgium to the list of countries, large and small, which have abandoned all talk of disarmament and are concentrating on the reverse. In Belgium the chief political issue just now seems to be the exact nature of the policy or national defense which shall be adopted. Within the past year and a half this small power has spent no less than \$50,000,000 defending its German border.

Thus Europe marched toward the ideal of bigger and better armaments. It was in the end meant death to a great many, but in the meantime, it is at least helping the armament concern to maintain production at a satisfactory high level.

Islands in a river, unless caused by rock outcrops, are continually travelling downstream as the current cuts at the upstream end of the island and deposits at the other end.

There never yet was a sermon that beat a good example.

King's Honors List Confers Knighthood On Two Canadians

London.—Two knighthoods and 10 other honors were conferred on Canadians with publication of the King's birthday honors list. The list contains four new peerages, five baronetcies and 54 knighthoods. Seven of the knighthoods went to the Dominion, two to Canada, two to New Zealand and three to Australia.

Knighthoods came to Canada for the second time in 15 years. They went to Dr. Frederick Grant Banting of Toronto, discoverer of the insulin treatment for diabetes, and Charles Edward Saunders of Toronto, former Dominion censal, who discovered four varieties of wheat, Marquis, Ruby, Reward and the famous Garnet.

Dr. Banting was made a knight commander of the civil division of the Order of the British Empire, and Mr. Saunders a knight bachelor. They will be known hereafter as Sir Frederick Banting and Sir Charles Saunders.

Sir Lyman P. Duff, Canada's chief justice, and Sir Joseph M. Teller, chief of the Court of King's Bench in Quebec, were honored at New Year's, receiving the first Canadian titles in 15 years.

Four Canadians were made companions of the Order of St. Michael and St. George. They are: Alexander Johnston, former deputy minister of marine; Ernest Joseph Lemire, clerk of the privy council; William James Roche, chairman of the civil service commission, and Dr. Duncan Campbell Scott, noted poet and former deputy superintendent of Indian affairs. He was granted this honor in the civil division of the order.

Five women were named commanders of the order. They are: Miss Margaret Eustace, Theodora Addison, former dean of women at Victoria College, University of Toronto; Mrs. Mary Elizabeth Waagen Allard, honored for service to crippled children.

In connection with the Canadian welfare service, Miss Winnifred Kyte, of Montreal, president of the National Council of Women; Rev. Mother Marie Anna Pieche, superior general of the Grey Nuns, Sisters of Charity, Montreal, and Miss Margaret Marshall Saunders, of Toronto, honored for services to the Canadian Human Society.

Edwin Lister Brittan was named an officer of the civil division of the Order of the British Empire. He was honored for his honorary services to the patriotic fund.

Visits Canada

Quebec.—On the staff of the Prince of Wales, now King George, during the latter's Canadian tour in 1905, Lord Southborough, 74, now a prominent British financier, returned to the Dominion, landing at Quebec from the liner Empress of Australia. Lord Southborough is particularly interested in British Columbia in which province he holds large interests.

Companies Act Bill Goes As Far As Possible To Protect Investors

Ottawa.—An attack on the whole-sale issue of common stocks of no pay value featured review of the Consolidated Companies Act in the House of Commons. Harry Butcher, Liberal member for Last Mountain, Sask., proposed a prohibition against such issues, claiming they led to stock-watching and the fleecing of unsuspecting investors.

Secretary of State Charles H. Cahan said he could not accept the Butcher amendment which finally was withdrawn. The bill went as far as possible in the direction of protecting investors but all evils could not be wiped out at once. Canada was a small part of the world-wide business structure and it would be futile to try to reform everything at once, especially when provincial legislatures had the right to incorporate companies.

Several clauses of the 208-clause bill passed through committee. In the background of most of the discussion was the futility of the Dominion endeavoring to pass blue-sky company legislation, filed with protecting features for investors, when the provinces did not take the same

Paints Dismal Picture

Hon. Robert Weir Says Reports From West Show Conditions Worse

Ottawa.—A dismal picture of conditions in the drought-stricken and grasshopper-plagued prairies was painted by Hon. Robert Weir, minister of agriculture, in the House of Commons. He said reports from the West in the last 10 days "show conditions are worse than they have been."

The house was discussing grasshoppers and Dominion assistance in clearing the insect from the Western plains.

Millions of acres in the three Western provinces were barren, the minister said. Livestock was starving and being shipped to the north in efforts to salvage a portion of the herds. More land was needed.

Western farmers had not been given much relief, he said, and had been devoted, in part, to fighting the grasshopper plague. Mr. Weir told the house.

This year the provinces had been assured of all necessary assistance and had entered into heavy obligations for poison bait and educational campaigns. The government had fulfilled its promise to assist.

This was the minister's answer to the question of Hon. W. R. Motherwell (Liberal, Melville), who had charged that no money earmarked for the grasshopper fight had been advanced the Western provinces until the opposition had complained of the fact in the house a fortnight ago.

The answer of the minister had left the impression that money loaned Saskatchewan for relief and seed grain had been diverted to the grasshopper fight. If that were true then it was possible these loans were being used for other purposes—possibly for election campaign work, Mr. Motherwell observed.

Seeking World Record

California Flyer Will Attempt To Break Post's Record

Riverside, Calif.—An effort to beat Wiley Post's globe-circling record and to win the London-to-Melbourne air derby was announced by Lieut. Murray M. Dilley, reserve army flyer.

Lieut. Dilley said he would take off June 20 on a non-stop hop to New York. From there he plans to dash for London, leaving there as an entrant to the Melbourne race.

The projected round-the-world flight will be launched in Melbourne. Post's record is seven days, 18 hours, 56 minutes.

In Favor Of League

Ottawa.—Canada will remain a member of the League of Nations, as far as the senate is concerned. Without a recorded vote, the upper house voted solidly against the motion of Senator A. D. McRae, of Vancouver, to withdraw from Geneva.

The present bill, said the secretary of state, was one of the most stringent company-incorporation laws in the world and already it had resulted in scores of new companies appearing to the provinces for incorporation.

"I suggest we remedy such evils as we can at the present time," said Mr. Cahan, "and let us reasonable expectation the amendments and reforms incorporated in the bill will be adopted by the several legislatures of Canada, and that we proceed step by step to solve the problem of company organization, which confronts us, and secure the reforms which the conditions of the commercial and industrial life of our country disclose as being reasonably necessary."

The government had gone as far as it felt it could in refusing the issue of no par value shares, preferred as to capital. In 1908, parliament had changed the act permitting of no par value shares both common and preferred. Hundreds of companies had issued preferred shares of no par value but this would not be permitted in future if this bill became law.

French Language On Radio

Objections Are Voiced In House By Regis Member

Ottawa.—Objections of the people of Saskatchewan to the use of the French language over the radio were voiced by F. W. Turnbull, K.C., (Conna, Regina), to the House of Commons committee on radio. Mr. Turnbull declared he was voting the views of the people of that province, asserted the commission was allowing freight to be made an instrument in promoting the view that French was the official language of the whole of Canada.

A feeling existed in many quarters in his province, Mr. Turnbull declared, that the French people were insisting on rights and privileges to which they were not entitled. The objection in Saskatchewan was that in using French in the broadcasts there, an effort was being launched to make Canada a bilingual country. It was bad for Canadian unity and bad for the French language if such a belief continued.

He had no hostility to French, nor did any hostility prevail in Saskatchewan. However, underlying the whole matter were some fundamental questions. One centred on the belief that, he declared, prevailed largely in Quebec that French was the official language of the entire Dominion. On the other hand, the majority of Saskatchewan and the other parts of Canada were largely of the opinion the French language was not the official language of Canada, but was confined in its application to the terms of the British North America Act.

Strange Malady Killing Alberta's Wild Fowl

Mystery Death Again Strikes On Stobart Lake Near Calgary

Calgary.—The mystery death that took toll of thousands of wild fowl on Stobart Lake last fall threatens again. The lake is about 60 miles southeast of Edmonton. A strange malady, which Dominion and provincial investigators failed to solve last year, has struck again, it was reported, and this year it has spread to gulls, thousands of which have died in the few dry days. In September, 1933, and later in the fall, ducks by the thousands died at the lake.

Conditions are reported far worse than last year and authorities in Ottawa and Edmonton have been notified.

To Save Livestock

Manitoba Government Will Try To New Grazing Areas

Winnipeg.—The Manitoba government has moved to succor approximately 30,000 head of farm stock from starvation and drought.

Serioussness of the feed situation in drouth areas in the southeastern portion of the province was placed before executive council of the government and relief measures approved.

The Dominion government and transportation system will be asked to co-operate with the province in transporting stock to areas where grazing is good. It is hoped to arrange mass transportation without cost to the farmer.

Relief For Single Homeless

Ottawa.—The federal government contributed \$463,769 for food, fuel, clothing and shelter to single homeless persons in the three prairie provinces from March 31 to July 31 of last year, according to figures tabulated in the House of Commons. The amount was divided as follows: Manitoba, \$241,710; Saskatchewan, \$44,493; Alberta, \$177,566. In these cases the Dominion bore 100 percent of the relief.

SASKATCHEWAN'S GENERAL ELECTION TAKES PLACE IN JUNE

By an unusual coincidence the general elections in Saskatchewan will be held on June 19th, which is the same date as the elections in Ontario. Above we see the three political leaders, left to right: Hon. J. G. Gardiner, leader of the Liberal Party; Premier J. T. M. Anderson, leader of the Conservatives; and M. J. Caldwell, Farmer-Labor Leader.

LIBERAL LEADER

Mitchell F. Hepburn, leader of the Ontario Liberal Party, who is conducting a strenuous campaign in preparation for the forthcoming Provincial General Elections. This is a new picture of Mr. Hepburn.

Radio Expenses

Canadian Radio Commission Spent \$316,534 For Artists

Ottawa.—During the fiscal year 1932-33 the Canadian Radio Broadcasting Commission spent \$316,534 for artists and \$104,143 for equipment of studios and stations and new construction at Ottawa and Montreal. Details of the total expenditure of \$1,128,591 during the year have now been given out.

The commission's statement shows that Hector Charlsworth, the chairman, received \$9,000 per annum salary, and Vice-Chairman Maher and Commissioner W. A. Steel each \$7,200 per annum.

Travelling expenses of the three commissioners were as follows: Mr. Charlsworth, \$1,097; Mr. Maher, \$3,733, and Mr. Steel, \$1,201. Other travelling expenses were \$23,545.

Other items of the commission's expenditures are as follows: Total salaries of office staff, \$54,740; leases of stations, \$102,836; other salaries, \$28,163; leases of time on stations, \$102,836; other salaries, \$67,049; printing and stationery, \$10,997; freight and express, \$2,241; office equipment, \$6,669; telephones and telegraph, \$10,996; publicity, \$1,144; rental of studios, \$14,001; power and light, \$4,170; maintenance, \$11,331; wireless, etc., \$302,978; music royalties, etc., \$16,340; station charges for advertising, \$12,242.

The total spent by the radio commission is outside \$245,420 was the strange phenomenon witnessed by R. T. Allen and his family at Coaldale, Alta., he reported here. The rainbow, the colors of which were clearly defined, appeared across the sky from east to west between 12:30 and 1 a.m., Allen reported. It was a vivid arch.

Western Premiers Protest Discontinuance

Of Relief After June 15

Ottawa.—After June 15 it is expected the provinces will be able to take care or direct relief within their borders. Hon. W. A. Gordon, minister of labor, has advised all provincial governments the existing agreements covering direct relief contributions from the Dominion will be extended in their operation until that date.

It is hoped that during the summer months at least the provinces will be able to get along without federal aid.

As an aid to employment the Dominion government has prepared a large program of public works construction and a bill to authorize it is expected to be introduced in parliament shortly.

No information has been given as to whether the present relief policy will be resumed on a general scale.

Winnipeg.—Faced with the formal suggestion they should be able to carry on direct relief without aid, provincial governments of Western Canada pondered what steps they would take to protect their depleted financial chests due to relief payments.

Hon. M. A. MacPherson, acting premier of Saskatchewan, immediately after receipt of the telegram from Hon. W. A. Gordon, federal minister of labor, telephoned pro-

tests against discontinuation of federal relief aid after June 15.

Premier John Bracken of Manitoba instituted negotiations with municipalities to see what step could be taken, and Premier John Brownlie of Alberta declared the two weeks' extension to June 15 "means next to nothing." Premier T. D. Pattullo of British Columbia had no comment to offer.

The telegram received by the Manitoba government, similar to telegrams sent all provinces, read: "In view of lateness of season generally prevailing throughout Canada, Dominion is passing appropriating order-in-council to have provisions of 1933 agreement with respect to direct relief continued until June 15, 1934. After that date I trust your province will be able to take care of your own difficulties at least during the remainder of the summer months."

Telegraphing from Regina, Mr. MacPherson said the Saskatchewan government was certain federal aid in direct relief expenditures would have to be continued.

"The relief situation in Alberta has not materially improved," said Premier Brownlie at Edmonton, "and the financial position of the provinces and municipalities is such that we cannot possibly carry the relief burden alone."

Plane Speeds Up Trip

Northern Territory Covered By Inspector In Record Time

Edmonton.—Following a rapid inspection of northern Manitoba, Saskatchewan and Alberta, four postal inspectors, Hudson's Bay fur commissioners landed at the South Crookston lake air base, a passenger in the Junkers machine piloted by Archie McMullen of Canadian Airways. Mr. P. —, in less than one week, covered territory that in previous airplane days would have taken months.

A Strange Phenomenon

Lethbridge, Alta.—A rainbow at midnight was the strange phenomenon witnessed by R. T. Allen and his family at Coaldale, Alta., he reported here. The rainbow, the colors of which were clearly defined, appeared across the sky from east to west between 12:30 and 1 a.m., Allen reported. It was a vivid arch.

Business From Russia

Moscow Proposes To Place Large Orders In Great Britain

London.—The Moscow government proposes to place large orders in Great Britain, if the prices and terms are right, declared L. E. Mather, president of the Anglo-Russian Chamber of Commerce, at the annual meeting of the organization here.

The information was from a reliable source in Soviet Russia, Mather said. Soviet purchases in Great Britain during the first four months of 1934 were two and one-half times larger than in 1933.

Issuing Special Stamp

Ottawa.—In commemoration of the 150th anniversary of the final settlement of the United Empire Loyalists in Canada, a special double-size postage stamp of the denomination of 10 cents will be issued, it was announced by the post office department.

Protest Is Made

Against Gold Clause

In New Banking Act

Ottawa.—Strenuous protest against those provisions of the Bank of Canada Act under which the chartered banks must transfer their gold holdings to the new institution and sacrifice the premium in so doing, was made in the House of Commons banking committee.

S. H. Logan, general manager of the Canadian Bank of Commerce, laid before the committee the protest and arguments of the Canadian Bankers' Association.

"I protest strongly against the forced transfer of gold from the chartered banks at a figure far below that at which it is valued in the grain field pests."

The second argument was that when Canada refused to redeem her notes in gold, the people generally and not the banks had suffered through depreciation of the Dominion's currency abroad. In view of this fact, it appeared reasonable the Canadian people should be the beneficiaries through the rise in the value of gold and the consequent premium gained, they said.

The bill provides that the gold in the chartered banks held in connection with their domestic business shall be taken over by the central bank at the par rate of \$20.67 per ounce, whereas the market value is around \$35. Gold held by banks against outside business will be left with them. Any profits made by the central bank in the sale of gold at a premium goes to the Dominion treasury.

NOTES AND COMMENTS

RAILROADS are faced with unfair competition against which no business can survive. Highways and waterways of the Dominion are maintained by tax-payers, but railroads are required to maintain their right-of-way and pay taxes from revenue. Railroads are necessary, for it would be a national calamity if their services were reduced to a condition of inefficiency or eliminated. Waterways aids to navigation and highways are paid for by millions of dollars of tax-payers money, as also are deficits on Canadian National Railways. C. P. Fullerton, chairman of the National, states unprofitable lines will be abandoned. Co-ordination of all forms of transportation must be arranged if the terrible waste of money is to be avoided. It comes from the tax-payers, yet thoughtlessly they approve and encourage projects which cripple the economic and financial life of the Dominion.

THE KING'S birthday passed unnoticed in Coleman, except for the bank, post-office and liquor vendor's store closing, and a Union Jack displayed at Fred Antrobus. Harry Clark was quite peevish that flags were not flying on public buildings and schools. Following so closely on May 24, the King's birthday was to some extent overlooked as far as outward signs of observance were concerned. But it cannot be construed as disloyalty or indifference. Too many holidays of a public nature destroy their significance in the public mind.

AFTER THE first burst of enthusiasm which spring brings bubbling to the surface, there develops a lazy attitude in many people's minds. Stores, some of them, seem to think it's not much use going aggressively after business and a drifting attitude if not checked will cause loss. Every day brings its tasks, especially in planning for future business, for he who does not look to the future, trusting it to take care of itself, will find that instead of himself driving business to greater activity, business will drive him to the wall. Like pulling against the stream when rowing, the moment you cease, you immediately begin to drift. And drifting means, usually, going on the rocks.

PUBLIC Sale of Land is the official heading of a full page advertisement in the Hanna Herald for approximately 1200 parcels of land to be sold in rural municipalities of Hanna district, because of non-payment of taxes. Grasshoppers, drought and high winds are trials which eventually overcome stout hearts. On the other hand, Seager Wheeler, on a visit to Lethbridge, stated he never had a failure on his farm at Rostheron, Saskatchewan, and in addition to grain growing, had been successful in growing several varieties of small fruits. Care of land and intensive cultivation as against "wheat mining" apparently can be made pay.

KING'S Birthday honors conferred on Dr. Saunders, former Dominion cerealist, and Dr. F. Banting, who will now prefix their names with "Sir" are richly deserved. A fitting sense of values is shown by the King's advisers in recommending these honors. Dr. Saunders' discovery of Marquis and other types of early ripening wheat has put millions of dollars into the hands of western agriculturists, with practically no reward to himself except a comparatively small salary as a Dominion government official. Dr. Banting's service to humanity as the discoverer of Insulin is so well appreciated as to require no further comment. Service to humanity rather than material reward has marked their work.

WE ARE reminded of life's changes in looking at the photograph on the front page. Of 24 men in the picture, taken in 1913, only ten are Coleman residents in 1934. "Time, like an ever rolling stream, bears its sons away" The photograph will recall interesting reminiscences to Colemanites of early days.

"As You Were"

The Fernie Free Press comments on the settlement of the Michel strike as follows:

The strike differences at Michel have been adjusted and the men are back working again. The result was accomplished through the medium of the executive of the B.C. Miners Association, the men having decided that the B.C. Miners' Association would be able to do more for them than the Mine Workers' Union of Canada, or the Michel Miners' Association, an organization recently formed by a large number of English speaking miners at Michel, who objected to being drawn into the Communistic League sponsored by reds from Blairmore.

The miners' executive was given strictly to understand that the company would at no time have any dealings with the representatives of the Mine Workers Union of Canada.

The men are practically just where they were before the strike was called with the exception that they are out a week's work amounting to each man of any way from \$20 to \$40.

At that they are very fortunate. The mines would no doubt have been re-opened in a few days by those who would not be hoodwinked by Murphy or his followers, or if this were impossible the mines at Michel would have been closed down indefinitely and hundreds of men would have been destitute with no possible chance of even getting on relief! Murphy's promise of strike assistance from Blairmore where the men are in even more trying circumstances than they are here could be nothing but a huge joke. How men of intelligence can be drawn about by vapors of such leaders even for the space of a week is very hard to understand.

Buckingham Fine Cut Premium Cards

Smokers who "roll their own" will be interested to learn that there is no trading or exchanging necessary with the Premium Cards packed in Buckingham Fine Cut.

The cards in this Cigarette Tobacco are not numbered. They don't have to be in any particular sequence or order to make a set.

This is in marked contrast to the old method of collecting sets of cards when a smoker might have to wait weeks before getting the two or three cards necessary to complete his set. Every premium card which a smoker of Buckingham Fine Cut gets, adds to the value of his set. Every card fits in without trading.

It takes only 30 of the premium cards packed in the twenty cent package of Buckingham Fine Cut to make a set. ANY 30 cards will do.

The premium cards in Buckingham Fine Cut are the same kind that are packed in Buckingham Cigarettes and Buckingham Pipe Tobacco.

One of the most interesting points in Mr. Blaylock's speech given at the Lorne Campbell honorary banquet in Nelson, was his mention of Tommy Uphill. Mr. Blaylock thought that Tommy Uphill along with other prominent district men, was a great and famous enough character to provide hero material for a Dickens' novel.—Fernie Free Press.

If the party signing "Subscriber" to a letter sent in, not necessarily for publication, but as an evidence of good faith, The Journal will publish same.

Speedway Official

Annually, the automotive industry honors one of its members by making him referee of the classic 500-mile race at Indianapolis. This year, Roy D. Chapin, Terraplane-Hudson head and former U.S. Secretary of Commerce, officiated at this week's running of the spectacular speed classic.

In 1931, Mr. Chapin drove an entry in one of the first important motor races on this continent and also displayed his flair for pioneering by flying with Orville Wright when that great inventor's performances were still considered to be on the verge of fantasy.

Further indication that the boom in gold prices will make the current season perhaps the greatest the Yukon has experienced since '98 was apparent when the Canadian Pacific coastal liner Princess Norah sailed recently from Vancouver for Skagway and way ports, carrying 100 passengers; many of them gold prospectors and mining engineers.

WORLD HAPPENINGS BRIEFLY TOLD

The Straits Settlement legislative council adopted a bill restricting rubber production in conformity with the London agreement.

France and Great Britain plan to consider jointly the problem of debts owed to the United States at a meeting of envoys in Geneva.

Forty aborigines and whites have perished in Western Australia, victims of a mysterious disease, the Daily Herald's Australian correspondent has cabled.

Hints are heard that a new move would be made to get Germany back into the tottering world dismemberment conference. The move was said to revolve around the United States.

The body of Sam Behan, Port-mouth penitentiary convict who died suddenly of a heart condition, has been claimed by his widow and has been sent to Brooklyn, N.Y.

Half a million picketed fry were deposited recently in the Moose Jaw river at the Wild Animal park by officials of the department of natural resources.

Definite adoption of a pacifist attitude and commitment of the organization of public opinion in the interests of peace was made at Toronto at the conference of the Association of Canada Clubs.

Birth of five daughters to Mrs. Olivia Divine near Callander, Ont., is the first quintuplet birth in Canada. So far as we know, Dr. F. C. Routley, general secretary of the Canadian Medical Society, said.

The shipments of livestock from Western to Eastern Canada during the first 17 weeks of 1934 and 1933 (latter figures within brackets) were: Cattle, 29,267 (12,135); calves, 164 (19); hogs, 82,908 (116,902); and sheep, 40,423 (32,246).

Low Price For 'Planes

Britain Sells Reconditioned Fighters For Two Hundred Dollars Each

Aeroplanes entirely reconditioned and capable of doing 120 miles an hour, price—\$200!

The British air ministry has sold many of these aeroplanes at prices usually given for second-hand cars.

They originally cost \$200 and were built as fighters, with engines which cost at least \$5,000. They are in perfect condition and are almost as airworthy as new.

There is one which is now on offer for \$350, but for the extra \$150 you get a spare engine, two spare wings and the all-important certificate of air-worthiness. The engines are of a world-famed make and in tip-top condition.

These machines and engines are obtainable at these crazy prices because they have been superseded by later fighting models. While light aeroplanes can be used fairly cheaply, these powerful machines cost so much to run that few private owners can afford to run them.

Scientists have been unable to determine the particular group of animals to which the gnu of the African plains is most closely related. It bears a close resemblance to three other animal species, the horse, the antelope and the ox.

A bee has been found to travel 43,776 miles in gathering one pound of honey.

Plenty And Poverty

Canada Is Well Stocked With Nourishing Foods

If old man "Famine" should drop in unexpectedly he would find Canada's public ice boxes well-stocked with nourishing foods.

According to a recent bulletin the butter in cold storage warehouses and creameries on May 1st amounts to 12,481 pounds of dairy, the creamery butter total including approximately 330,000 pounds reported by firms added to the list since March 1, 1934.

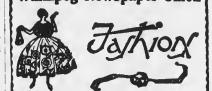

Cheese stocks total 9,863,432 pounds. Eggs in cold storage amount to 3,015,377 dozen; fresh eggs 610,812 dozen; and frozen eggs 828,126 pounds.

Fresh frozen: 5,267,727 pounds; fresh frozen: 11,239,762 pounds; cured or in cure: 174,372 pounds.

Pork in cold storage amounts to 3,609,702 pounds. Beef stocks total 4,203,621 pounds of fresh frozen; 4,346,036 pounds of fresh not frozen; 192,591 pounds of cured, and 105,272 pounds of beef in process of cure. Fresh frozen veal amounts to 513,318 pounds; fresh not frozen 642,809 pounds. Mutton and lamb stocks total 1,766,058 pounds of frozen and 137,138 pounds of not frozen. Poultry stocks are as follows: Broilers, 87,769 pounds; chickens, 2,278,877 pounds; fowl, 675,779 pounds; ducks, 678,675 pounds; geese, 70,455 pounds; turkeys, 2,160,294 pounds; and unclassified poultry.

Fish totals 5,430,590 pounds and there are also 3,035,414 pounds of smoked, dried, pickled or salted fish.

745

BUTTON CLOSING GIVES SMART INTEREST AND YOUTHFULNESS TO NAVY AND WHITE TIE SILK PRINT FROCK

There is immense satisfaction about getting into something with clean cut stern lines. It gives one that trim feeling.

To-day's little sports dress is very individual. It's very simple to make it. And it can be sleeveless, if you prefer it. See small back view for the drop shoulder that covers the back arm so modestly.

For firmly held waist, the frock is striped or checked seersucker, plique, linens, shirting cottons, plaided gingham, tub pastel silk, pastel crepe, etc., may be smart.

Style No. 745 is designed in sizes 16, 18 and 20, 36, 38, 40 and 42 inches bust. Size 36 requires 40 yards of 39-inch material with $\frac{1}{2}$ yard of 39-inch contrasting.

Price of pattern, 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Little Journeys In Science

SPONTANEOUS COMBUSTION

(By Gordon H. Guest, M.A.)

Combustion of a fuel has been shown to be the rapid chemical combination of the material with oxygen, accompanied by the production of heat and light.

The temperature to which a substance must be heated before it will burn is known as the ignition or kindling temperature. We know that paper and wood will ignite more easily than coal. When we use a match to light a fire, we rub the match-head until friction has heated it to its kindling temperature, and the tip burns. The heat of the burning tip raises the temperature of the stem to its kindling temperature, and so the process continues until the wood or coal reaches its kindling temperature and burns. As long as a substance is cooler than its kindling temperature, it cannot burn.

Sometimes we have a slow combination of oxygen with a substance which develops into active burning, and this is known as spontaneous combustion. Scientists have shown that a given weight of material, for example, iron, in combining with oxygen to form a certain oxide, will give off the same total amount of heat whether the union proceeds rapidly or slowly. If the combining goes on slowly and the heat goes off, little rise in temperature will be observed. But if the material is a poor conductor of heat, we find that the heat accumulated until the kindling temperature is reached and burning commences. Such a situation often arises when rags soaked with the oils used in making paint (linseed oil and turpentine) are left lying about, instead of being placed in a metal can, or, better still, burned. These oils, in "drying," combine with oxygen from the air, and turn into a tough resin-like material. Rags being poor conductors, the heat developed finally sets the mass on fire. Fires in coal bunkers and hay stacks arise from the same cause—slow combination with oxygen, with the accumulation of the resulting heat until the kindling temperature is reached. The beach-wrecked carcass of the whale has been known to take fire spontaneously due to the union of oxygen with fat.

To Visit Australia

Duke Of Gloucester To Make Extended Tour In September

The British government has announced that the Duke of Gloucester will leave for Australia in September aboard the H.M.S. Sussex and will spend four days at Colombo, Ceylon, before continuing to Perth, West Australia, where he is due October 5. He will arrive at Melbourne, Victoria, two days later and will open officially the centenary celebration of the state of Victoria.

His Royal Highness will sail December 10 from Brisbane, Queensland, going home via New Zealand where he is due December 15. He will leave that Dominion at the end of January and proceed via Bay of Islands for deep sea fishing.

He will visit Fiji, Western Samoa, sail through the Panama canal and possibly touch Jamaica en route to England.

The Duke of Gloucester, the king's third son, will go to Australia instead of his younger brother, Prince George, who visited South Africa in the spring.

French Tree For Australia

The French government will present to Melbourne, Australia, a tree from a battlefield in Northern France where French and Australian soldiers fought side by side in the World War. It will be sent in time to be planted at Victoria's Shrine of Remembrance.

SYNOPSIS

Camilia Hoyt, and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter, however, is a gambler, always trying to win a competition for a scholarship abroad and Camilia is the adopted daughter of a wealthy family. It is not to inherit wealth when she comes of age that she is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another woman he is with, and her son, Peter; Sylvia Todd, Peter's model, and Gus Matson, his former roommate, with whom he has quarreled. After a party at an expensive club when the rest of the members go to the party go to a cabaret to continue the gaiety, Peter and Camilia slip off to the beach by themselves and fall asleep. When they wake up, they realize it is early morning and Avis and another boy are standing near them. This makes her nervous for Camilia to be seen with him, but she and Peter are married. Camilia urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel. After Camilia goes to the studio, Avis Werth calls and persuades Peter to accept a loan of \$1,000. Peter and Camilia are reconciled. Avis invites them to a party, at which she introduces Peter to well-known artists and public men.

(Now Go On With The Story)

CHAPTER XLVI.

Avis was in her element, the figure or attention in the room, filled with guests, eager to see Peter's entry for the exhibit. Peter stood beside her, handsome and debonair, happy that his work was finished and well done. Camilia was a spectator, for she stood the farthest from the general interest, which was the chief state.

Avis spoke brilliantly, impressively, of her pride in Peter and his work, her hopes for his success, and vouchsafed for the good wishes of these friends of his who were honored to be present at the christening of his first great work.

Camilia's eyes traveled from her illuminated face to the modeled group in the window alcove which had been Peter's first gift to her. Nothing he ever might produce could be more precious to her, and she doubted if anything could be much better. She actually believed that it was a better piece of work than the new "Inspiration," but conceded that the latter would probably better as an exhibit entry. Peter had caught the spirit of the thing so admirably in that group, perhaps because it had been inspired by his new love for her and her staunch defense of his ancestry.

Avis concluded, "And it has been my great privilege and honor to give the name to the marvelous piece of art, which I have called 'Inspiration.'" With a dramatic gesture she drew the veil from the figure and stood aside. Followed exclamations and compliments. Peter surrounded by the ebullient guests. Even the title was praised, pronounced perfect by flattering critics who gave little thought either to its significance or originality.

Avis sought and drew approbation like a magnet. It might not be sincere, but it served her purpose of the moment. Plaudits and trite phrases pattered about like hail-

stones and melted as inconsequently as they. No one cared particularly about the merits of the sculptured figure, the taste or merit of the title or the success of its creation. They were much more intent upon the hilarity which this occasion afforded them and the liquid refreshments which awaited them across the hall.

There was no time lost when they arrived here. Cocktails were passed immediately. Toasts were drunk to the sculptor and to his work, to his success, to the one who had named the statue, to every possible subject—except Camilia. She was as useless as the veil which had shrouded the figure and was cast aside. She had inspired Peter, loved him, urged him to do the work, abridged him from obligations to her, humored his moods, forgiven his harsh and unjust words, sacrificed her personal happiness—and this was her reward.

As Avi had intruded where she had no right, had insidiously commanded Peter's favor, usurped the privileges of another—and now shared Peter's momentary triumph—she opened the door into Peter's studio.

She would not be missed if she went to her for a while, where it was cool and dark—and she might cry a little to dissolve that horrible longing lump in her throat which threatened to choke her. She could not imagine what was the matter with Peter tonight. He was not himself and she wouldn't let herself be angry with him. She only wanted to be alone for a while to adjust herself and somehow let the evening pass. After that, everything would be all right again.

Peter was only tired and anxious and baffled with an exaggerated sense of obligation to Avis, who had made him believe she had done a great deal for him. He would see everything straight again after this excitement was over and they had had a little time together.

Peter was most obliging, while he made a few calculations of his own. Give the Ansons another year, and he would have another chance to win Camilia. But he said casually, "Peter looks down out. Guess he's been close at the grind all summer. With his aching head pressed on her hand, she began to plan for the week ahead all the time she could give to Peter. She would take care of him and let him rest and relax.

There were sounds at the door and it opened presently. Camilia looked us quickly. Avis was whispering to Peter, who stood behind her in the square of light from the hall. Camilia rose from her chair instantly, trying to overhear what Avis was saying, just as Peter reached out and turned on the lamp near the door.

As the light illumined the room, each of them exclaimed incompletely when they saw Camilia—and instantly, all three cried out at what the lamplight revealed to them. The bronzed figure, "Inspiration," lay in shattered fragments on the floor around the pedestal where they had left it standing so proudly an hour before.

MAKE YOUR FALSE TEETH HOLD FAST

Eat, talk, sing and shout and never fear embarrassment. Your false teeth stick all day long when you sprinkle on Dr. Werner's Powder—they fit snugly—comfortably—they can't slip. Friends say "We're holding on—why?—they know it's the best! Costs but little—any druggist.

has something to tell you that I just heard from Uncle John about the exhibit. Excuse us please," she smiled, with sacharin sweetness, at Camilia, and took his arm possessively, as he transferred the lighted cigarette from his lips to her heavily rouged ones.

The room blurred for Camilia, whirled dizzily. It must be the heat, or the portion of a cocktail she had drunk—she must get outside. Without notice, she slipped along the wall to the door and into the hall outside, glanced about her and quietly opened the door into Peter's studio.

She would not be missed if she went to her for a while, where it was cool and dark—and she might cry a little to dissolve that horrible longing lump in her throat which threatened to choke her. She could not imagine what was the matter with Peter tonight. He was not himself and she wouldn't let herself be angry with him. Peter was only tired and anxious and baffled with an exaggerated sense of obligation to Avis, who had made him believe she had done a great deal for him. He would see everything straight again after this excitement was over and they had had a little time together.

Peter was most obliging, while he made a few calculations of his own. Give the Ansons another year, and he would have another chance to win Camilia. But he said casually, "Peter looks down out. Guess he's been close at the grind all summer. With his aching head pressed on her hand, she began to plan for the week ahead all the time she could give to Peter. She would take care of him and let him rest and relax.

There were sounds at the door and it opened presently. Camilia looked us quickly. Avis was whispering to Peter, who stood behind her in the square of light from the hall. Camilia rose from her chair instantly, trying to overhear what Avis was saying, just as Peter reached out and turned on the lamp near the door.

As the light illumined the room, each of them exclaimed incompletely when they saw Camilia—and instantly, all three cried out at what the lamplight revealed to them. The bronzed figure, "Inspiration," lay in shattered fragments on the floor around the pedestal where they had left it standing so proudly an hour before.

(To Be Continued)

Esquimau's Former Name

Naval Base Known As Iwthomayth Twenty Years Ago

Esquimau, the naval base adjoining Victoria, was spelled "Iwthomayth" 20 years ago although the derivation of that name is unknown. The quaint spelling is shown on an original sketch map of Vancouver Island presented to the province of British Columbia by the governor and committee of the Hudson's Bay Company in London.

The map was drawn by Lee Lewes under the direction of James Douglas, then governor of Vancouver Island. It gives the name "Camsack" for Fort Victoria.

Word to the wise is said to be sufficient. Ever notice how many words people use in giving advice?

Humans are slow to learn. Hens have been laying streamlined eggs as long as anyone can remember.

"So you don't think the celebration of the finish of my first real work is very important?" he repeated, coolly. "Oh, of course—I didn't mean it that way, dear. It's the party that isn't important," she smiled into his eyes, but there was no response. He seemed to be pre-occupied, lighting a cigarette.

Avis hurried up to him. "Give it to me," she requested. "I haven't time to light one. And come in the other room with me a minute. I

Ruling Was Lasting

Speaker Of House Banished Bar From Parliament Hill

A. P. Herbert, the famous "A.P.H." of Punch, a delightfully whimsical character, as Canadian newspapermen who have met him well know, is changing the laws on the kitchen committee of the British House for settling intermissions. It is a reminder of the days, which seem far-off, when we had a bar of our own up on Parliament Hill.

It wasn't much of a bar in size, and didn't have a rail for one's feet, but what it lacked in spaciousness it more than made up in other ways. One might get anything there, from a min julep to Guinness's stout, and get it at any time from three o'clock in the afternoon until one hour after the rising of the House, which, in those days, might be three o'clock in the morning. Twas a great aid to parliamentary eloquence. Many an otherwise mute and inglorious De-motheen turned out a fair maiden speech under its inspiration, and many an obstructionist was produced who would have delighted the heart of Parnell.

Well known handwriting on the wall came to it with the Speakership of Dr. Sprout. That most lovable of Speakers, a strong man, objected to the conviviality of the parliamentary Bohemians being carried on so far into the night, especially as the bar was directly over the apartments where he slept, and he suffered from insomnia. So an edict went forth that the bar must close with the rising of the House, which, truth to tell, was a late enough closing for a bar at any place.

But it wasn't Mr. Speaker Sprout's most popular ruling. And we remember how some of the legislators, resenting this onslaught on their personal liberty, used to get up processions and march up and down before the good Speakers apartments singing the "Wearing of the Green," they knowing he was a grand Orange man.

A few years later, and there came prohibition. And the bar never came back—Ottawa Journal.

Moving Reindeer By Motor

Seven Being Taken From Sweden To French Pyrenees

Seven reindeer are being transferred from Sweden to the French Pyrenees, and it is expected that they will not reach their destination until summer. They are in charge of two Swedes and a Lapp, who will care for them after their arrival until the experiment of transplanting is completed. The journey is being made in a motor truck, and long stops are made on the way to accustom the animals to the changes of climate. How they will thrive in the land of starlit summer nights instead of the silvery twilight of Sweden, is a conjecture. Reindeer often lived in the French Pyrenees and the experiment is to get them to settle there and multiply. A similar trial was made some years ago, but the long trip was made by boat and train, and the animals died.

Using Small Potatoes

English Firm Proposes To Make Substitute For Flour

A company is being formed at Ely, England, for the manufacture of farina and dextrin from potatoes. In the first one of the problems of the potato group has been to find a market for his undersized vegetables—or "small." This new factory proposes to utilize them. They will turn the potatoes over a mill which ridges the ridges.

The new industry will consume 75,000 tons of this year's crop, and after two years will materially increase that figure. Farina during the war was used as a substitute for flour. It is still extensively used in the manufacture of foodstuffs.

Three Ottawa Seats Vacant

The death of Dr. William Scatliffe, Conservative member for Frontenac-Ardington, created the third vacancy in the House of Commons—all on the government side. North York was left unrepresented by the death of Col. T. H. Lennox and Toronto East by the death of Hon. E. B. Ryckman, former minister of national revenue.

Flapper (looking nervously at small boy with dog): "Er, don't let him bite me, he's showing his teeth."

Small Boy: "Oh, you can't go by that, miss; you're showing your legs, while they're assisting your kidneys to function normally."

Does Not Harm the Heart

Little Helps For This Week

"Let Him do to me as seemeth good unto Him." 2 Samuel 15:26.

To have each day the thing I wish.

Lord that seems best to me;

Lord that seems best to Thee.

Most truly, O Lord, Thy will is done.

When mine O Lord my cross,

Thy good to me thy plans overthrown,

My ways in Thine all lost.

—H. Bonar.

O Lord Thou knowest what is best for us; let this or that be done as Thou shall please. Give what Thou wilt, and how much Thou wilt, and when Thou wilt. Deal with me as Thou thinkest good. Set me where Thou wilt, and deal with me all things as Thou wilt. Behold I am Thy servant, prepared for all things; for I desire not to live unto myself but unto Thee, and O that I could do it worthily and perfectly.—Kempis.

Old Coat Of Mail

Was Worn By Thirteenth Century Soldier In India

Relic of the days of old, when wardrobes weren't complete without armored suits, a battered coat of chain mail hangs on a wooden effigy in the Calgary museum.

The coat was worn by a 13th century warrior of Punjab province, India, and a gaping hole in the chest indicates that he met his end on the battlefield. This hole, three inches across, and several other minor rips, are said to have been inflicted by spears in the hands of enemy warriors.

In addition to covering the body from hips to neck, the coat also has a veil to cover the head, leaving only the features exposed. It is owned by Mrs. T. W. White, Three Hills, and was for many years the property of her husband, the late Captain White, when he was a member of the 33rd Sikh regiment in India. The Kensington museum of London places a value of \$1000 on the coat.

Coal Petrol For Planes

Contracts have been let to enable seven squadrons of the Royal Air Force of Great Britain to fly solely on petrol produced from coal. One squadron used this type of fuel during the major part of last year with satisfactory results. Two new plants being established will employ 2,000 men.

CHIMING CLOCK

Have you lived where a clock strikes the hours?

So long as you've heard its chime,

Have you listened to melody marking the dispensation of time?

Till it creeps, all unheard, past your hours?

No mere muted heart-beat or breath,

Yet its music is part of your living,

its silence is part of your death?

For, though its notes dwindle, unheeded,

Yet if one day the chiming should cease,

A sudden unrest would besiege you,

And would subtly shatter your peace,

Have you lived where a clock

chimes the hours?

So long you no more heard it strike?

Then you know—you can sense, al-

most dimly,

What my living with you has been

like!

Pest Receives Medal

Wiley Post, who encircled the world in seven days, 18 hours, 49 1/2 minutes, has been awarded the gold medal of the International Aerobic Federation for the best air exploit of 1933.

**Jumpy Nerves**

Personal and Local

Miss Bessie L. Dunlop spent the week end with friends at Fernie.

Mr. and Mrs. L. Lindoe motored to New Dayton on Sunday.

Miss Myrtle Nelson left for Nelson on Saturday.

Born: to Mr. and Mrs. Ken Blain, on Friday June 1, a son.

Scout flag day on Saturday, June 30.

Mr. and Mrs. E. Roberts, of Calgary, are the guests of Mr. and Mrs. R. Evans.

Miss Hilda Fairhurst of the Nursing Mission in Lethbridge was visiting her parents this week.

A policy of reciprocity towards the advertisers in this paper will make this publication a sought-for medium for advertisements.

Ribbons for any make of type writers may be obtained at The Journal office. Also carbon paper for duplicating.

Mr. Piermont of the circulation department of the Vancouver Daily Province was a visitor in the Pass towns last week.

The Brownies held a very enjoyable picnic on Saturday at the lake, in charge of Mrs. Frank H. Graham and Mrs. Edgar Reid.

Rev. Dr. Kerby, principal of Mount Royal college, Calgary, addressed Coleman high school students on Monday.

Dr. and Mrs. McCallum and daughter Marion of New Dayton and Mrs. Puffer of Lethbridge are the guests of Mr. and Mrs. L. Lindoe.

Mr. and Mrs. E. F. Gare and children left on Tuesday for Nelson where they will stay for awhile till Mr. Gare decides on a location for entering business.

Mrs. J. Cousins was bereaved last week by the death of her sister. For some months she has been a patient in the sanitarium, and her death came as a shock, as she had been improving for some time.

Herb Sherratt's thoroughbred Airdale 5 year old dog is the latest victim of poisoning, being found on Tuesday morning at the rear of a residence on Third street. It had been dead some hours.

Mr. J. T. Berry, representing the Dominion of Canada General Insurance Co., was here this week looking up business for his company, of which Alex M. Morrison is the local representative.

Boy Scouts are planning summer activities to include Bellevue, Hillcrest, Blairmore and Coleman. A district meeting is to be held this evening in Blairmore to arrange for summer camp.

Several cars of members of the Knights of Pythias in Pass towns went to Kimberley on Saturday for a grand rally. J. Griffiths, Bud Clarke, Buck Eyesacker and Jim Gardner went from Coleman.

A number of lady friends surprised Mr. and Mrs. McBurney on Saturday evening, it being the 25th anniversary of their wedding. A sterling silver souvenir spoon was presented and a beautiful bouquet of flowers.

Cruickshank's store at Hillcrest was broken into on Monday night by the thief entering through a transom, removing the glass. A young man aged 18 years has been arrested.

Miss Eileen Cousins was awarded her Registered Nurse degree last week. She was graduated in March from Cranbrook hospital, completing three years training there. At present she is spending two months in Tranquill sanatorium.

GRADUATES!

Watch the Big Clock
in Our Window

YOU MIGHT WIN
a BULOVA Watch!

Our Gift to the Graduates of Coleman High School

The names of all the students in this year's graduating class have been placed on the Big Clock in our window. The clock has been fully wound. When it stops, the hour and minute hands will point out the names of two fortunate graduates, each of whom will receive a Bulova Watch.

There is no gift as useful, as practical, as a fine timepiece — none that can compare with a Bulova Watch. When you speak to Mother or Dad, tell them that our selection represents the greatest values ever offered!
